# SOLID COLOUR

## Durable, easy to use and economical

Water-based epoxy flooring provides a durable protective solid colour coating to your internal concrete floor. Avista's waterbased epoxy system is low-odour, quick-drying and provides a hard-wearing low-sheen finish which can be tinted to a range of practical colours. It is an easy to use two-part system where Part A and Part B are mixed in equal quantities.

Avista's waterbased epoxy products are ideal for your garage floor or rumpus room and can also be used for light commercial floors. If you would prefer a gloss finish, the coated surface can be sealed with Avista Polyurethane Sealer.
